

# Ferrex

## Oilseed Rape

### Key Factors to consider:

- Oilseed rape prices at an all-time high crop establishment is key
- Soil moisture required for OSR emergence, ideal conditions for slugs
- Low damage risk threshold for slugs in OSR; one per trap in cereal stubble
- Create a fine, firm seedbed, Apply slug pellets at or soon after sowing
- Coverage is key, ensure correct calibration of applicator

### Key Benefits of **FERREX** :

- Excellent pellet stability in dry and wet conditions
- 60-66 pellets per m<sup>2</sup> when applied at 6 kg/ha
- Lentil shape offers a slim biting edge giving optimum control of juvenile slugs
- Uniform distribution at application due to patented production process
- Proven spreading characteristics (see ferrex.tech for more information)

www.ferrex.tech

Plant based raw materials + active ingredient spread throughout the lentil ensure rapid uptake of ai even if only a small piece has been consumed
